### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. In claim 8, line 3, --a member including--, was inserted before "a first edge" in order to obviate 112 issues (to recite the insert as comprising an edge would raise 112 issues because an edge is not structure (i.e., comprising an edge of what)).
2. The following is an examiner's statement of reasons for allowance: The prior art does not teach, in combination with the other elements recited in claims 1 and 8, the ring or receiving element having or extending a length generally equal to the insert (there is prior art to, say, Leibach et al US 20030038459A1 where the ring or receiving element 3 extends a greater length than insert 1, but this would not meet the limitation of the ring/receiving element extending or having generally equal lengths).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
